“BOULTON CORRESPONDENCE.” 1796-1838.

Chiefly letters from and drafts of replies to Mathew R. Boulton of the Soho Mint, a private institution in England, which supplied the United States Mint with copper coin blanks. The letters dated after 1808 are signed “M. Robinson Boulton.”

Included are a letter of January 1, 1843, from the agent of the Soho Mint (the Boulton Mint) to the Director of the Philadelphia Mint relating to mint operations after the death of Mr. Boulton, and a report of May 15, 1836, from the Philadelphia assayers regarding the use of silver tokens for currency and referring to the Soho Mint.

Originally this series was a part of the correspondence described in entry 1. The correspondence is arranged chronologically. For copies of other letters sent to Mr. Boulton, see entry 3.

1800

July 7. Mr. Bratton's letter of this date acknowledges receipt of the Bill but that it was refused acceptance & was protested for want thereof.

April 29. The Director wrote to Baltimore & advised acquainting them with said circumstance - they returned him an answer - but cannot find their letter - expecting it would be paid in England when due.

May 12. Mr. Bratton returned said Bill for non payment, and was accordingly credited by the Treasurer of the mint - and that being the case when said

D. 5562.44

5582.20

This amount will not be allowed or paid to the Credit of the Treasurer of the mint by the Comptroller of the Treasury at Washington who still holds the Treas. of the mint liable for it until the Treasury can be satisfied that nothing can be recovered on the bill of 17th Aug 1801.

July 29. The Director enclosed copy of the Bill & protest to Rebalon Hollingsworth attorney gen^l at Baltimore for the suit in suit.

1801-

July 26. Mr. Hollingsworth advises the Director he had obtained judgment against them for the amt of the Bill upon with 15 p^{ct} damages & interest on the principal from the date of the protest - that the preference of the United States would be determined hereafter.

My

I am under many apprehensions of being ill

this winter for want of blankets, so many vessels having arrived from the
 port had a line from you — I have been in daily expectation of
 hearing the fate of my last remittance of £1000 that, which I trust
 has been paid long in this — I have great confidence that you
 have made me a large shipment by one of your vessels, otherwise we
 will be in a disagreeable state thro' the winter — I long to hear
 from you by the first opportunity

The price of Copper yet advancing being
 for the present I cannot say to the 30 Decem 1801 of Ten Cts.
 having risen progressively since my last shipment together
 with the want of opportunity has prevented my shipping any
 quantity in the Antigua, should the price continue to advance

 ships should I hear from you before the time of preparation for

their darling but trusting you will be desirous of having 20 or
 30 Tons shipped I shall prepare that quantity for you & as
 the time of receiving answer is considerable I trusting the price
 thereof may sometimes permit the fulfilment of your

The above is copy of my last, to which I beg leave to refer —

It is with much anxiety that I have impud repeat last
 opportunity to write you, but a tedious fall of the Gales, and some Delays in

 will be pleased to carry to the credit of the Mint —

I hope the Billers last sent you drawn by Stewart & Sons have been honored —
 since drawing them, the Hamburgh gentlemen have so affected that House, that
 they were obliged to send their creditors together, who finding their affairs in such
 good order have agreed that they shall go on ^{payable} ~~payable~~ their own ^{company} ~~company~~ and
 it is probable that they will not be very well — (but still it has given
 me some uneasiness, lest you should be disappointed — If it should be the
 case I will replace them, as soon as I have notice of their being protested —
 Mr Stewart writes me that he hopes they will be honored, as a bill that arrived
 a week before it is probable they did, have been honored —

His Excellency Esq. John Adams Dear Sir
 11 1822
 I have the honor to acknowledge the receipt of your letter of the 2nd inst.

Yours

I duly received your enclosed favor of July 2^d 1822 covering Two Dollars Value together Eighteen hundred Pounds which sum is at the Credit of the Mint of the United States of America. I have also received yours of the 6th Nov. containing your Envoys D. Stewart Esq. or Messrs. & Daniel Value Twelve hundred fifty one pounds & Eleven Shillings which Bill I sent up for acceptance but am sorry to add that it was refused acceptance. I have thought it necessary to have the same protested but should it be paid at maturity I shall pay the Amount to the Credit of the Mint. I shall also pay the return of your 7th demand as soon as I know it is allowed to the same Credit. As the price of Copper has been gradually

2281 in 1822 in the letter which I have now before me
 I have been too busy in respect to making you a further
 statement this spring; but as the Copper Business is yet before
 parliament & just now going to undergo a further investigation
 I shall take the opportunity of my presence in London of
 consulting with Mr. King thereon. The very first opportunity
 I have I will give you an answer to your enquiries respecting
 that operation & in the mean time I conclude myself

Yours most ob. servt.
 for Matthew Boulton
 W. D. M.

Dear Wendell Phillips
 February 4th 1850
 I have just received your letter of the 28th inst. in relation to the
 purchase of the new edition of the "Declaration of Sentiments".

I duly received your estimate of
 of July 3rd & amount to \$1.00. I have now in my hands
 Bills for the Boston Hundred Pounds & the latter one Bill
 for the hundred fifty one pounds & eleven shillings the whole
 of which is placed to the credit of the Mass of the United
 States of America. From your remark on the last page in
 which I was obliged to charge the Copper for your pleasure to

I am at a loss how to act in regard to sending you a supply
 this Spring as Copper is so advancing in price. The present
 price of Copper being \$132 per ton in New York & the
 price of the new edition of the "Declaration of Sentiments" is \$1.00.

Dear Bonden Esq^r

Like Sunday 31st 1801

For

I was duly favoured with yours of the
23rd August & 5th of Decem^r 1800 the former enclosing two
Bills, amounting to £764. 14. 1 viz One Thirteen Seven Shill.
Thirty four pence, 14/10 which Bills I acknowledge the 24th
of Novem^r to which I have I hope, I am very sorry for your
disappointment of Plansets by the late ship, but shall now
sit about copper-plate from 20 to 30 tons for the first ship this
spring, the price of copper is now £116 - 4 Mos and it had
at what price I shall ship them. I send herewith my charges
of 27 Lys for Rolling to be, also Carbs, Only 1 Shilling
as it may be, therefore request your attention to remit me
or not, being about £2000, their cost as money is at
these times particularly scarce more so with me just now

1021 I have more than \$10000. bid up in Demand
 & having what is worse I am fearful of its being
 forfeited, as Stuart Pollock, having influenced the Comtee
 of Refuse & Demand to enter into a confederacy
 against England the former of which has already begun to
 attack American property in a way to threaten unprosperated
 by old Records, if you wait for a supply in Autumn you
 must be supplied in January or previous orders when you
 remit for the present intended Shipment that you have
 hoped you will be able to give me assurance of after the
 remittance to meet the claims on their passage or even
 before the shipping of them Copper is an article that pays
 but a small percentage the dealers in which look very sharp
 after their money & give more credit with their best
 customers - I am in want of shipments of other products
 to me

which I have no doubt will be found right

I am always, with the utmost respect
 for
 Yours very able Servt.

Your favour of Nov^r 30. 1800 — has just
got up to hand — I have been in daily expectation of receiving
a supply of copper plates from you, and the disappointment
is very great, as well as the loss, leaving many hands that must
be often unemployed for want of them — The use of copper
with you is great indeed, and I scarcely know what to say on
the occasion, but I believe at all events you must send me
out by the very first Vessel (if not already done) about five Four
of Plates at the lowest price you can alter it — In
the mean time I will consult the President and advise you
further on the subject —

I am in haste

I hope you will not
neglect the shipment by the
very first Vessel —

March 28. 1861

Sir

I had the pleasure of writing you the
24th inst. to which I beg leave to refer, in regarding the early
of the 159. 5. 31. as 27/60th you will perceive it should have been
£268. 13. 6 in lieu of £262. 18. 6. — therefore the amount of
the shipment should be £1857. 1. — The London Invoice which
I hope is correct amounts to £1888. 8. 3. making together £3,745. 9. 3.
The steamer not having sailed before or expected my Agent at
Liverpool ^{with ship} ~~has shipped~~ the whole by her which hope will arrive
before had not your Letter arrived in time to prevent it I should
have shipped 30 Tons, but having at that time only 20 Tons, but
into fact a state as could not be made without a very heavy loss.
I could not avoid paying that quantity, but you will please observe
that the present shipment will reach you at a less expense than
the last spring at the the Copper — £5 1/2 Ton higher charge the same
being 4 guineas 6/6; less than at that time, the real quantity paid
of Copper. Sept. April, May, & June will be paid in the 31st Inst. the
which I shall quote by the Packet for April, in the mean time
I remain very respectfully

Wm. Borden Esq. Copy. 1801

I was duly pained with the news of the 27th
 August 85th of Decr 1800: the former covering two Bills amount-
 ing to £ 1768 - 15 - 1. say One thousand seven hundred & sixty five
 pounds 15/8. which Bill I acknowledged the 24th of Novemr to which
 Letter I refer. I am very sorry for your disappointment of Plansets
 by these Returns. I hope, but shall not about to prepare from 20 to 30
 tons for the first Ship this Spring. The price of Copper is now £ 136
 4 months fixed here, at which price I shall ship them, adding
 thereto my charge of 2 1/2 p. per ton. But for Balling &c. &c. also freight, Duty &
 Insurance, as it maybe, then you request your attention to send me
 an Adv^{ce} hereof about £ 6000, this last, as Money is at these times
 particularly scarce, even with me just now, my Shares in the
 Bank look'd up in Denmark & Norway, & what is more I am
 fearful of its being suspended, as French Politics have influenced the
 Courts of Russia, Sweden, & Denmark to enter into a confederacy
 against England: the former of which has already begun to attack
 the vessels property in a way hitherto unprecedented by Old Times
 I hope if your wish for a supply was Return you must be explicit
 in giving me positive orders when you want for the present intended
 shipment & at some times I hope you will be able to give me
 assurance of a further assistance to meet the same on their passage
 or even before the shipping of them Copper is an article that pays but a

Sir

A few weeks past I recd your last favour Dated 31

Jan^y last, since which I have forwarded you this' old King's minester
 plan estimating 4000 Dollars on Aed - but altho' your letter gave me
 the greatest reason to believe that a shipment of 20 or 25 Tons of Charcoal
 would be made by the first opening Vapour, yet after the arrival of 6 or 8
 from the agent I am without a line from you - The disadvantage of
 our life that the want of pecuniary means, is very disadvantageous
 indeed - If we cannot fall on some greater degree of certainty in our
 supplies, I must provide some other mode of obtaining them, as by this means
 it increases the Original Cost 40 or 50 per cent above what it would otherwise
 be - I confess my fears are great but some accident has been
 the cause of this delay, which I greatly regret - In hope of hearing
 from you very shortly

(Yours Sir)

My

Since my last of the 16th July, the state of our political affairs produced some embarrassments by the change of officers, and other unavoidable delays, that I could not do more, without considerable inconvenience, than direct the Treasurer to remit to you bills drawn by Phillips for more \$50 in favour of John Lewis, for services during the last year for 2272^{1/2} lbs. of cloth, which I hope have got safe to hand — He has now got my order to remit by this Packet the further sum of £1156.18 — sterling, which I beg you to carry to the credit of the Fund of the United States — Since my last, we have worked up your shipment of the 25th of March, and they have turned out in good order, and to great satisfaction — I will endeavour to make a further remittance by the April Packet if possible — I shall expect you will repeat your shipment to the amount of about 20 or 25 tons in the first spring — I sincerely congratulate you on the blessings of Peace, which our men have visited your flourishing Island — May it long continue — I take it for granted that the great demand for copper now existing, the Price will be in some measure reduced —

I am Sir, with great respect

Yours very truly, Wm. Lloyd

Sir

I yesterday received a letter from the Treasurer
 of the dated March 25th 1802 enclosing two W^m. Cox's Esq^r dated
 March 24th as he says Sight on George Barclay Esq^r 18th Jan 1790 for
 say Nine hundred fifty pounds Sterling which sum is at the
 credit of the Bank of the United States & as p^r Barclay's order you
 readily to reimburse the Payment of Banknotes already made leaving
 only a Balance of £222.13.7. Instead Shipping from 18 to 20 Tons
 of Banknotes by any Ship that may sail in June, I would have
 been a great unwillingness to me to have had your orders at that
 latter end of the year as I could have prepared the paper during
 the Winter if therefore you do not adopt the mode presented by
 giving me permanent orders for Spring that you will please give
 me early notice from time to time to prevent disappointment &
 if you wish for any more than the 20 Tons above the year, please
 write immediately or next hereof, & then for the Spring of next year
 not later than November, hoping the Committee will approve before I can
 remain very respectfully

Sir

Since my letter to you of the 14th inst
I have been informed that the Collector of the Customs at
Liverpool has ordered by edicts to inform all Merchants
I may pass letters since the 5th Inst. that they are
likely to be called on by Government orders for a heavy
duty on all goods shipped since that period, as previous
such orders are not issued, but I have thought fit to
give you notice thereof lest it should happen as in that
case we must pay it & charge you therewith, provided
it will be left as a previous unpaid duty to that and
as part of the Ministers Wages & means I am

Y^r very Obedient
